1.0   GENERAL INFORMATION

1.0 General Information

General Information section explains in general terms the app and the purpose for which it is intended.

1.1 System Overview

EnRoute is a mobile application which is designed for businesses who offer fresh food delivery.

The application will help the driver in finding the shortest and quickest route around town while keeping him in track and giving his live location to the business manager.

1.2 Organization of the Manual

The user's manual consists of five sections: General Information, Getting Started, Using the app as a driver, Accessibility, and Contact information.

General Information section explains in general terms the system and the purpose for which it is intended.

Getting Started section explains how to use Enroute as a driver. The section presents the sign-up, and sign-in screen alongside the driver settings screen.

Using The System section provides a detailed description of the application's functions. Also contains user access levels.

Contact Information is a page that provides the developer's contact in case of inquiries and troubleshooting assistance.

2.0   GETTING STARTED

2.0 Getting Started

General Information section explains in general terms the app and the purpose for which it is intended.

2.2 Sign-up

To sign up for the app as a Driver after hitting the "Create Account Button":
1. Enter First Name
2. Enter Last Name
3. Enter Email Address
4. Enter Strong password (strong passwords include numbers, symbols, capital letters, and lower-case letters: Use a mix of different types of characters to make the password harder to crack)
5. Confirm previous password
6. Select Delivery Driver as Account type

1.2 Sign-In

To sign-in:

1. Enter your email and password in the fields provided respectively.
2. You could sign in with google if your account was created with a google mail address.
3. Hit the sign in button to log in.

Normal sign in button

Sign in with Google if you registered with Google email address
